Projects

-
- **Tastify-Website**
Built front-end with HTML, CSS, JavaScript, Bootstrap; integrated PHP backend for menu management.
 - **Connect Circle**
Real-time chat application developed using Vue.js as frontend and Firebase as a real-time database.
 - **School Learning Platform (LMS)**
Built a full-stack LMS for Wentecho Institute with role-based dashboards (Student, Teacher, Admin) to manage courses, attendance, assignments, and academic operations efficiently.
 - **Full-Stack E-Commerce Web Application**
Developed and deployed a full-stack e-commerce fashion website showcasing premium menswear products with responsive design and seamless user experience.
 - **Multi-Tenant E-Commerce Platform (Shopify-Inspired)**
Developed a scalable SaaS-based e-commerce platform with theme selection, integrated drag-and-drop page builder, subscription/payment integration, and complete store management system in one solution.
 - **Finance-Tracker-App**
Developed a Company Revenue & Operations Intelligence System using Mern with Multiple business unit panels, prices calculations, and real-time graphs.
 - **Tumor-Detection-Platform (Final Year Project)**
Collaborated on a MERN-stack AI web application for brain tumor detection; integrated TensorFlow.js model and implemented hospital recommendation features.

Education

National University of Modern Languages, Islamabad

2021-2025

BS in Computer Science

- CGPA: 3.65/4.0

Certifications & Events

Pearson Certified Test Administrator

2026

Final Year Project Showcase - Open House & Job Fair

2025
